Professional Summary

Seasoned web developer with a strong focus on innovation and user-centric design. Brings extensive experience in crafting responsive, mobile-friendly websites that deliver exceptional user experiences. Specialized in optimizing website performance and implementing the latest technologies. Proven ability to collaborate with development teams and communicate complex technical concepts to non-technical stakeholders.

Work Experience

Intern Web Developer , 2 Months
Prodesk It Solution - Noida

- Developed and maintained dynamic web applications using React.js, Node.js, Express, and MongoDB as part of the MERN stack.
- Implemented responsive UI components and optimized front-end performance to enhance user experience across multiple devices.
- Created and integrated RESTful APIs for seamless data flow between client and server.
- Deployed full-stack applications to Vercel and Render, ensuring scalability and smooth CI/CD processes.
- Engaged with cross-functional teams, including designers and backend developers, to align project goals and timelines.
- Worked closely with mentors to debug issues, improve code quality, and follow Agile development practices.
- Implemented authentication, authorization, and database schema design to improve security and data consistency.

Projects

Portfolio Website 🔗 [Link](#)

Prescripto – Online Prescription Management System 🔗 [Link](#)

Tech Stack: MongoDB, Express.js, React.js, Node.js, Vercel

- Developed and deployed a full-stack web application using the MERN stack, enabling users to manage prescriptions and medical records efficiently.
- Created responsive, user-friendly UI with React, ensuring seamless navigation and optimized loading speed across all devices.
- Implemented secure RESTful APIs using Express and Node.js for authentication, CRUD operations, and real-time data handling.
- Integrated backend and frontend through efficient API communication, ensuring smooth data flow and reducing response time by improving API performance.
- Engaged in end-to-end deployment of both frontend and backend on Vercel, ensuring continuous integration and seamless delivery.
- Improved user experience by implementing dynamic routing, form validation, and token-based authentication for security.

Todo App – Task Management Application 🔗 [Link](#)

- Developed and implemented a full-stack MERN application to manage daily tasks with authentication and real-time updates.
- Created secure JWT-based authentication system with user registration and login functionalities.
- Designed and deployed RESTful API endpoints for task operations including insert, update, delete, and completion status tracking.
- Worked on building dynamic, responsive UI in React with checkbox toggles for task completion and intuitive form validations.
- Integrated frontend and backend using Axios, ensuring seamless API communication, optimized performance, clean error handling, and improved scalability through efficient state management.

Skills

Programming Languages: JavaScript (ES6+), Python

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Responsive Design, Axios

Backend Development: Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware, Error Handling

Database Management: MongoDB, Mongoose, Sql, MySql, CRUD Operations, Query Optimization

Tools & Deployment: Vercel, Git, GitHub, Postman, VS Code, npm

Core Competencies: Full-Stack Web Development, API Integration, State Management, Debugging, Problem Solving, Performance Optimization, Version Control

Education

Bachelor of Computer Applications

Graduation year 2025 [Hemvati Nandan Bahuguna Garhwal University](#)

Certifications:

Python Full Stack Development – Ducat Noida
