ABOUT ME

Passionate Full-Stack Developer skilled in Node.js, Django, React, Tailwind CSS, Mongoose, and MySQL. I enjoy designing efficient, scalable APIs and building user-friendly web interfaces that solve real-world problems through clean, maintainable code.

Currently, I'm exploring Large Language Models (LLMs) and working on a beginner-level project that integrates AI capabilities into web applications. Through this, I'm learning how to connect backend systems with AI APIs, understand prompt engineering basics, and experiment with AI-driven features.

I'm seeking opportunities where I can enhance my full-stack development skills, continue learning about AI integration, and contribute to impactful, real-world projects with a collaborative team.

EDUCATION

2022 - 2025

HNBGU Uttarakhand

Bachelor Of Computer Application

- Passed with 7.5 CGPA
- Build a Full Stack project about "Ayurveda"

CERTIFICATION

DUCAT (noida)

Full Stack Development

Front-End: JavaScript, React.js, HTML5, CSS, TAILWIND CSS, VITE

Back-End: Express.js, Node.js.

PROJECTS

E-COMMERCE

FULL-STACK

<https://github.com/amanbhatt20002/prescripto>

This is a full-featured MERN (MongoDB, Express.js, React, Node.js) application.

🔒 Implemented JWT (JSON Web Token) authentication and authorization for secure user login and admin panel access.

⚙️ Developed and consumed 10+ RESTful APIs with Express.js and MongoDB for seamless product, user, and order management.

- Managed global application state (Cart, User Status) efficiently using Context API for a seamless user experience.
- Developed a fully responsive and interactive frontend using React.js and Tailwind CSS to ensure optimal performance across mobile and desktop devices.

TO-DO

FULL-STACK

<https://github.com/amanbhatt20002/TODO>

🔒 Engineered a secure, role-based authentication system using JWT (JSON Web Tokens) to manage user sessions.

🔒 Secured user passwords by implementing bcrypt hashing to prevent plain-text storage, enhancing system integrity and compliance.

⚙️ Designed RESTful APIs with Express.js to manage all CRUD operations (Create, Read, Update, Delete) for candidates and elections, utilizing middlewares for protected routes.

Developed a fully responsive and interactive frontend using React.js and Tailwind CSS to ensure optimal performance across mobile and desktop devices.

SKILLS

- Frontend: React.js, Axios/Fetch, Redux / Context API, Tailwind, Dev Tools
- Backend: Node.js, Express.js, RESTful APIs, API Integration
- Tools & Others: Postman, Git/GitHub, Cloudinary, Multer
- Build tools: Vite

SOFT SKILLS

- Communication Skills
- Collaboration
- Teamwork
- Critical Thinking
- Critical Thinking
- Time Management
- Adaptability
