## **Professional Summary:**

Seasoned web developer with a strong focus on innovation and user-centric design. Brings extensive experience in crafting responsive, mobile-friendly websites that deliver exceptional user experiences. Specialized in optimizing website performance and implementing the latest technologies. Proven ability to collaborate with development teams and communicate complex technical concepts to non-technical stakeholders.

## **Work Experience:**

### **Intern Web Developer, 2 Months**

**ProDesk IT solution – Noida**

- Built and maintained MERN stack applications using React.js, Node.js, Express, and MongoDB.
- Developed responsive UI and optimized performance for mobile and web.
- Created and integrated secure RESTful APIs with authentication and authorization.
- Deployed applications using Vercel and Render with smooth CI/CD workflows.
- Collaborated with cross-functional teams to align features and timelines.

## **Projects:**

**Portfolio Website** [Link](#)

**Prescripto – Online Prescription Management System** [Link](#)

**Tech Stack:** Mern Stack, Vercel

- Built and deployed a full-stack medical records management app using the MERN stack.
- Developed a responsive and intuitive React UI with optimized performance and navigation.
- Implemented secure RESTful APIs with Node.js/Express for authentication, CRUD, and real-time data handling.
- Optimized API communication to ensure smooth backend-frontend integration and faster response times.
- Deployed frontend and backend on Vercel with CI/CD and implemented token-based authentication, routing, and form validation for an improved user experience.

**Todo App – Task Management Application Full Stack Project** [Link](#)

**Tech Stack:** Mern Stack, Vercel

- Built a full-stack task management app using the MERN stack with real-time updates.
- Implemented JWT-based authentication for secure user login and registration.
- Developed RESTful APIs for CRUD operations and task completion tracking.
- Created a dynamic and responsive React UI with validation and task toggles.
- Integrated frontend and backend using Axios with optimized performance, clean error handling, and scalable state management.
- 

## **Skills:**

Programming Languages: JavaScript (ES6+), Python

Frontend Development : React.js, HTML5, CSS3, Tailwind CSS, Responsive Design, Axios

Backend Development : Node.js, Express.js, RESTful APIs, JWT Authentication, Middleware, Error Handling

Database Management : MongoDB, Mongoose, SQL, MySQL, CRUD Operations, Query Optimization

Tools & Deployment : Vercel, Git, GitHub, Postman, VS Code, npm

Core Competencies : Full-Stack Web Development, API Integration, State Management, Debugging, Problem Solving, Performance Optimization, Version Control

## **Education:**

Bachelor of Computer Applications

Graduation Year 2025 from [HNBGU](#)

## **Certification:**

Python Full Stack Development – Ducat Noida

## **Achievements & Interests:**

- Secured **3rd position** in the InoTech college program.
- Achieved **2nd position** in a computer quiz competition.
- Enjoy playing cricket and participating in team-based sports activities.
- Passionate about learning new concepts in technology and social domains.
